

ClickSeal®

1001 Nights & Going Strong!

Austin's Limitless With ClickSeal!

During the recent National Association of Floor Covering Distributors (NAFCD) conference held in Austin, several attendees visited one of the most famous floors in town. We're talking about the laminate floor in Lance Armstrong's nightclub "6 Lounge" in the old downtown.

In 2005, Cal-Flor was commissioned to oversee the installation of a high end Berry laminate floor in a hundred year old building being converted into Austin's newest, hippest nightclub.

The severe conditions of the site required a special approach. The old warehouse by the tracks had roly-poly floors, guaranteeing maximum flexing of the laminate. That coupled with high temperatures and humidity, navy-style maintenance, live music several times a week and a famous reputation to uphold led the manufacturer to ask that ClickSeal be used to ensure the success of the floor.

Now, after 2-1/2 years, NAFCD members found the floor to be in nearly perfect condition. An amazing tribute to both the flooring manufacturer and ClickSeal.

Europe's best selling sealant is now available in new packaging. Commercial application quantities and packaging under development.

280 Friday and Saturday nights
200 Live Bands
50,000 cowboy boots
3.2 miles of line dancing
10,000 spilled drinks
and 1,001 wet mop mornings.
