

Click Seal[®]

Moisture-Proofing in a Tube!

Designed for use in bathrooms, kitchens, entries and other areas exposed to frequent moisture, Click Seal is a blend of wax and oil formulated to penetrate the core, coat the surface and seal the joint. This 3-fold block against moisture results in a virtually waterproof floor.

- The newest product for laminate and engineered plank floors.
- Eliminates core swelling, protects the floor from spills!
- Quickly and easily applied during installation.
- Squeeze a bead onto the tongue, then click together!
- Unlike glue, ClickSeal allows free movement of individual planks
- Planks can be easily removed & replaced at any time.
- Ideal for kitchens, bathrooms, and entries
- Works in both residential and commercial environments.
